

Where Are They Now?

What is your name?

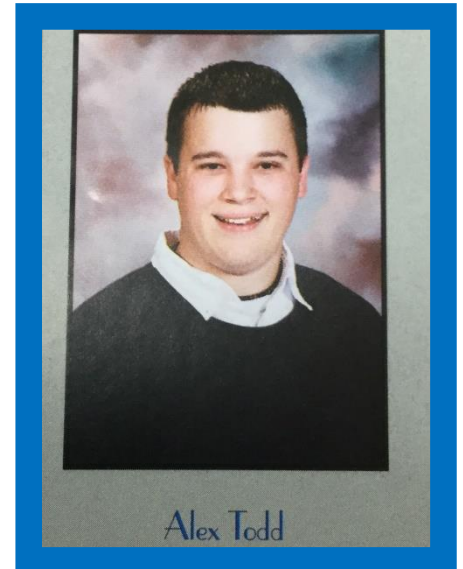

Alex Todd

Where do you currently live?

I currently live in Dayton, Ohio.

What year did you graduate from Brookville High School?

I graduated in 2002.

Did you attend and graduate from the Miami Valley Career Technology Center (CTC)?

No.

What is your current Occupation?

I am the *General Manager* of Proto BuildBar. I developed and opened a new makerspace/3d-printing café concept here in Dayton, Ohio. Along with day-to-day operations, we specialize in teaching these new technologies to beginners and experts of all ages and backgrounds. We are currently planning expansion to cities all over the United States!

What was your post high school education or training?

I attended The Ohio State University and Sinclair Community College.

What was your favorite high school course?

History and American Government with Mr. Caudill and Mr. Brown.

What do today's students need to know?

The true strength of your career will not be defined by your successes, but by how you deal with and adapt to your failures. I am a prime example in that even in your failures, if you work hard and have a friendly disposition, people will take notice and want to help you further yourself and your ideas. With that, change is inevitable and even the best made plans never quite work out how you might expect. Be open to new ideas and realize there is always more than one way to reach your goals. How you cope with the curveballs in your life and career will define you way more than any successes achieved.
